# WORD DECODER

Den just wrote a song. Can you figure out the title?

Add up the numbers represented by each set of symbols and replace them with the corresponding letter.

For example, the first letter in the message is R.

A spiral counts for 10, a star counts for 5, and each dot counts for 1, so 10+5+3=18 and the 18th letter of the alphabet is R.

1 = ●   5 = ★   10 = ◎
